Showcase

AI-ASSISTED DEVELOPMENT

CLAUDE (Anthropic) - Android Studio Plugin for controlled code generation & refactoring under manual review

ChatGPT (OpenAI) – ideation, specification, refactoring support, test scaffolding

CORE SKILLS

Languages: Kotlin, Java, Swift, Dart, C++, TypeScript/JavaScript

Mobile: Android, iOS, Kotlin Multiplatform, Jetpack Compose, Compose Multiplatform, React Native, Flutter

Architecture: MVVM, Clean Architecture, Modularization, DI (Koin/Dagger/Hilt), TDD

Tooling: Gradle, Version Catalog, CI/CD (GitHub Actions, Bitrise, GitLab), Firebase

Backend: Ktor, Retrofit, Serialization, REST integration

ADDITIONAL TECH

SwiftUI | Swift Package Manager | CocoaPods | Android Compose Navigation, Android Safe Args | Google Material Design (2, 3) | Decompose/Essenty, Version Catalog | Firebase (Storage, Analytics, Remote Config, Crashlytics) | Mockito | Mockk | Mockkery

EDUCATION

Zilinska University

BSc, STEM (Automotive Electronics & IT)

Miroslav Kusnir

Mobile Tech Lead (Kotlin Multiplatform)

PROFILE

Mobile engineering lead with 9 years experience across Android and cross-platform (**KMP, React Native, Flutter**). Pragmatic, delivery-driven, continuously exploring new technologies, with a strong interest in **AI-assisted development**.

EXPERIENCE

MOBILE TECH LEAD (Remote Contract)

AMCEF - Slovakia

03/2025 - Present

- **End-to-end ownership** of Android/iOS delivery, including stakeholder-facing technical leadership.
- **Shipped KMP foundation** enabling consistent cross-platform feature delivery and shared business logic.
- **Built release pipelines** for iOS (Xcode/signing, TestFlight/Firebase) and Android (Gradle/CI).
- **Accelerated delivery** via internal scaffolding generator + AI-assisted refactoring (manual review).

Tech Stack

Kotlin Multiplatform, Compose Multiplatform, Koin, Ktor, Decompose/Essenty, Compose Navigation, SwiftUI, Xcode Signing, TestFlight, Firebase Distribution, AppCompat Locales + AppleLanguages, JUnit5/MockK, Gradle Kotlin DSL, Claude/ChatGPT

SENIOR / LEAD ANDROID DEVELOPER (Remote Contract)

Vhi - Ireland, Dublin

11/2021 - 10/2024

Google Play: com.vhi

- **Promoted** from Senior Android Developer to Android Team Lead on a **top-ranking health insurance app** in Ireland.
- **Mentored** juniors/interns and coordinated cross-team delivery with iOS and product stakeholders, contributing to **4.5+** App Store rating and **99.5%+** crash-free users.

Tech Stack

Kotlin, Android, Jetpack Compose, XML, MVVM, Clean Architecture, Dynamic Feature Modules, Kotlin Multiplatform, GitHub Actions, JUnit 5, Paparazzi, Firebase (Crashlytics, Analytics, Remote Config, App Distribution)

SENIOR ANDROID DEVELOPER - Contract - Remote

EveryLife Technologies - UK, Farnborough

10/2019 - 09/2021

Google Play: com.elc.passsystem

- Delivered and maintained **Pass**, a **large-scale caregiving app** for care receivers and caregivers, balancing legacy stability with rapid feature delivery.
- Improved quality and reliability via CI automation, crash monitoring, and stronger security (encryption + biometrics).
- Built C19 tracking app to improve safety of care receivers and caregivers.

Tech Stack

Bitrise, Firebase, Kotlin Coroutines, EncryptedSharedPreferences, Room, Biometrics, Zeplin, InVision, Google Play Services, Mockito, CMake, Espresso

SENIOR ANDROID DEVELOPER - Contract - On-Site

Optomany Payment Solutions - UK, Maidstone

02/2019 - 08/2019

- Developed an Android **payment terminal application** for a large Nordic financial client in a regulated environment.

Tech Stack

MVVM / Clean Architecture, Dagger 2, Gradle Modules, Java, Kotlin, Kotlin Channels, Room, SharedPreferences, Azure Pipelines, JaCoCo, JUnit 4, Dokka, Glide

SENIOR ANDROID DEVELOPER - Contract - On-Site

Hi Mum! Said Dad - UK, London

08/2018 - 11/2018

Google Play: uk.co.gourmetsociety

- **Led** a small team (incl. offshore) delivering a **greenfield Gourmet Society** Android app — UK dining & lifestyle discounts membership.
- Owned **end-to-end delivery** from concept and design alignment through development, testing, and publishing.
- Early adopter of Kotlin, partnered with backend to define API specifications.

Tech Stack

Kotlin, MVP, RxJava 2, Android Custom Views, White-Label, Koin, Fabric Crashlytics, JIRA, Zeplin, LeakCanary

MOBILE SOFTWARE ENGINEER

Dynoden - UK, London

03/2018 - 07/2018

Google Play: com.engagingworks

- **Led** a small team delivering an internal business chat app.
- Worked in **Scrum** and collaborated closely with **iOS** and UI/UX teams to align delivery and product quality..

Tech Stack

React Native, Redux, Jest, Lottie, Axios, Realm, Scrum/Agile
